

Online Teaching Certification Program

Giving 21st century educators practical skills for online teaching success.

You'll Learn Online Teaching Skills to Excel in the Digital Age

You've seen it on your campus and on the news: Your students are plugged in to the digital society, online course enrollments are skyrocketing, and professional development budgets are down. Where will you get the quality training you need to advance your career?

@One is offering a new Online Teaching Certification Program that will help you excel in the digital age. It's extremely affordable, comprehensive and easy to fit within your busy schedule. Plus it's designed with your instructional needs in mind, so you'll receive usable tips every step of the way from the highest rated instructors in online education. You'll master effective course design skills, increase your student success and retention rates, better use your existing course management tools and learn to leverage new media to inspire your students to excel.

There are two ways to participate: either through the @One standard certification program, based on iNACOL's National Standards for Quality Online Teaching or a custom certification program for your campus, supported by @One and using @One courses. For more information about the programs, please read on or visit www.onefortraining.org/certification

Comprehensive Program Designed to Enhance Your Career

Our certification program is flexible, affordable, and designed to specifically meet the needs of California Community College faculty. We also encourage colleagues from other universities, K-12 and graduate students in education to participate. Here's an overview of the program:

Online Teaching Certification Program

▶ 1

Complete the five core courses.

First take:

- ▶ Introduction to Online Teaching & Learning

Then, in any order you choose:

- ▶ Creating Accessible Online Courses
- ▶ Course Management Training
- ▶ Building Online Community with Social Media
- ▶ Designing Effective Online Assessments

▶ 2

Complete the online teaching practicum.

Demonstrate online teaching proficiencies to your Mentor Facilitator in a presentation of your ePortfolio.

To become certified, first you'll need to successfully complete the core courses. After you complete the core courses, you will transition into the online teaching practicum. In this phase of the program you will polish your online teaching skills and partner with an @One Mentor Facilitator. The two of you will evaluate your very own ePortfolio, a robust collection of digital artifacts that you will develop throughout the completion of required course work. The online teaching practicum culminates with an online presentation, in which you showcase your work and mastery of the iNACOL National Standards for Quality Online Teaching.

Training Delivered in a Way that Works for Your Busy Schedule

For some, it's easier to attend online courses. For others, it's best to take a few days of intensive hands-on study. Our program offers options for you to mix and match formats as needed to meet your schedule and learning style. Our core certification courses are offered at least three times a year, in Fall, Spring and Summer and it is possible to complete the program in a year or less. Course types include: online facilitated courses, in-person institute workshops, and communities of interest.

Highly Rated Courses...Taught by Highly Rated Instructors

Our instructors are the best and regularly receive outstanding reviews for their depth of knowledge, ease of access, teaching style, and knowledge relevant to teaching online.

And Yes, It's Extremely Affordable!

The whole certification program can be completed for as little as \$500 for California educators—slightly higher for non-California educators. Why so little? You'll leverage the existing courses funded by a grant from the Chancellor's Office, California Community Colleges.

Current pricing as of July 2010 is:

Course Type	California Public Educational Institution	Private or non-California Educational Institution	Other
Online Course	\$55	\$110	\$220
In-Person Institute	\$75-100	\$150-200	\$300-400
Online Community	Free	Free	Free
Practicum	\$225	\$225	\$225

Plus, as part of the @One community, you'll also be able to access free learn at lunch desktop seminars and self paced learning.

Also Available...Custom Certification Program for Your College

This flexible, customized certification program is perfect for administrators with unique institutional needs. Institutions interested in this option may select their own customized curriculum plan from @One's abundant set of course offerings. As your faculty complete the coursework, we will monitor their progress. At the end of the program, each of the final certification designations can be granted by your institution. Plus, if you want more personalized in-person instruction, we can provide a list of excellent facilitators who can come to your campus for a fee, through our @One Trainers Bureau. If you would like to learn more about this option, please contact us today at certification@onefortraining.org and we'll set it up for you.

@One: Offering courses, workshops, seminars, certification and community in the areas of instructional skills, technology skills, basic computer skills, and leadership skills. For more about other free and low cost training for your faculty and staff, visit us at www.onefortraining.org
